

## TECHNICAL SPECIFICATION

**PRODUCT NAME: GLITHERM ECO -49°C**

### SPECIFICATION

Type of glycol	Monopropylene glycol
Glycol Concentration	59,2%
Color	Green
Ethyl alcohol content	None
Formulation	Homogeneous liquid without sediment
Smell	Weak or no odour
Crystallisation temperature	-49°C
Boiling point	>100°C
Density	1,0465g/cm <sup>3</sup> (at 20°C)
Alkaline reserve	Not lower than 8
pH	7,5 – 9,5

*The given physical and chemical values are the typical values.*

*The manufacturer of the product in question guarantees that the product does not contain any glycerine additives and does not come from the regeneration processes.*

### USAGE

Refrigeration, air-conditioning, heating systems, heat pumps, sprinkler devices and as a coolant in the food industry, without direct food contact. It is also an ideal medium for all types of systems using renewable energy sources.

### ADDITIONAL INFORMATION

The product has standards that allow it for use in construction, i.e. ITB Technical Recommendation and the Hygienic Certificate of the National Institute of Hygiene.

The product provides full anti-corrosion protection, prevents formation of deposits and microbiological life, keeps installations clean.

The product is covered by a 5-year warranty.

The product is ready to use.
